WHO WE ARE

The **Adult Transition Home (ATH)** provides a supportive residential setting for adults who need a place to live while building independence and developing a community-based support plan. The ATH can accommodate up to six individuals at a time in a comfortable, home-like environment.

Our **multidisciplinary team** offers skill-building and group home supports for adults with an Intellectual and/or Developmental Disability (ID/DD) diagnosis. Staff are cross-trained to support individuals with ID/DD who also have co-occurring mental health conditions and/or behavioral challenges.

The ATH collaborates closely with REACH crisis programs across the state to support individuals in their transition into the community.

With the **goal of promoting long-term stability**, the ATH partners with Community Services Boards, REACH Crisis Therapeutic Homes, and state hospitals to provide a seamless step-down option for continued care.

The ATH meets all Home & Community-Based Services (HCBS) Rights and Responsibilities and adheres to all state licensing standards.
