

Going to the Child Therapeutic Home

Sometimes kids need to go to a place away from home for a few days to get the help they need to feel better.

This short-term stay is at our Child Therapeutic Home where we have a Manager, Nurse, Coordinator, Team Leads, Behavior Consultant, and many staff to help you.

You will have your own room and you may make friends with other guests. The home can have a maximum of 6 guests at one time.

The home has a basketball court, playground, and a recreation room. It has puzzles, games, and toys.

Staff schedule groups throughout the day so you can learn about practicing coping skills, identifying triggers, and safety planning.

You will have the opportunity to earn extra TV time or time on the tablet for following program rules, participating in treatment, and meeting your daily goals.

Staff will be meeting with your parents or caregivers to discuss how you are doing in the home and when they can pick you up.

MONTH: _____						
SUNDAY	MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY

We hope to send you home with new tools and services that can help you feel better even through life's challenges.

We look forward to meeting YOU!
